Database

jQuery Sliders

1. Bxslider
2. wowslider

bxSlider

Process of downloading and using the web page. First go the website
"https://bxslider.com/install/"

😕 The Other Ways

Manual

1. Download jquery.bxslider.zip here

2. Include in your webpage

It will download the file name as jquery.bxslider.zip and extract the zip file and paste the folder into current working directory

⌄ **HTML-DAY14**

> bootstrap-4.5.0-dist

> bxslider-4-4.2.12

> jquery-ui-1.12.1

<> SimpleSlider.html
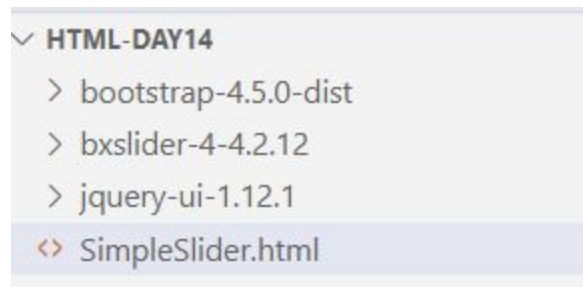

Example 1:

```html
<!DOCTYPE html>
<html>
    <head>
        <title>Slider Design</title>
        <link rel="StyleSheet" href="bootstrap-4.5.0-dist/bootstrap-4.5.0-dist/css/bootstrap.min.css" />
        <script type="text/javascript" src="bootstrap-4.5.0-dist/bootstrap-4.5.0-dist/js/bootstrap.min.js"></script>
        <script type="text/javascript" src="bootstrap-4.5.0-dist/bootstrap-4.5.0-dist/js/jquery.min.js"></script>
        <script type="text/javascript" src="bxslider-4-4.2.12/bxslider-4-4.2.12/src/js/jquery.bxslider.js"></script>
        <script type="text/javascript">
            $(document).ready(function(){
                $(".slider").bxSlider({
                    mode: 'fade',
                    captions: true,
                    slideWidth: 600,
                    slideHeight:400
                });
            });
        </script>
    </head>
    <body>
        <div class="slider">
            <div><img src="1.jpg" title="Img1" /></div>
            <div><img src="2.jpg" title="Img2" /></div>
            <div><img src="3.png" title="Img3"/></div>
        </div>
    </body>
</html>
```

Child and Parent

```html
<!DOCTYPE html>
<html>
    <head>
        <title>DOM Traversing</title>
        <script type="text/javascript" src="bootstrap-4.5.0-dist/bootstrap-4.5.0-dist/js/jquery.min.js"></script>
        <script type="text/javascript">
            $(document).ready(function(){
                window.alert($("h1").parent().html());
            });
        </script>
    </head>
    <body>
        <div>
            <h1>Application Development using Full Stack</h1>
        </div>
    </body>
</html>
```

Task

Select the width for the selected tool.

Navbar — using bootstrap and jquery - icons
